ABOUT

This opportunity provides a wonderful and unique experience witnessing the heavens that declare the glory of God and the firmament display His handywork. Beheld the Serpent S.T.E.A.M Academy will come with it's fleet of telescopes and setup for an evening of viewing night time objects. A message will be presented that will hopefully inspire you and glorify our creator Jesus Christ. Witness with your own eyes the product of the creative act on day 4 of creation.

This opportunity has been designed for congregations, families, and youth groups and camps.

This opportunity is completely dependent on weather conditions and location. The following affect viewing conditions:

- Clouds
- Light Pollution
- Full Moon

Due to the unpredictability of the weather, this opportunity is best utilized as a secondary event in your event planning if you are considering the opportunity for your youth group, church or family. Beheld the Serpent S.T.E.A.M Academy will try to be as flexible as possible in accommodating your plans but has the final say regarding cancellation. Bear in mind the logistics that are involved in conducting such an event.

We ask that you be considerate and please contact us as far in advance as possible, if you are considering scheduling a star party. Please check our [EVENTS](#) page for availability as well. If you are hosting a weekly VBS or a youth camp we can be flexible for that week and come out when the weather is cooperating. This opportunity pairs well with the speaking opportunity.

COST

The cost for this opportunity is \$100
